The Myth of Judeo-Bolshevism

How Bad Habits Became Big Business

No Property in Man
Slavery and Antislavery at the Nation’s Founding
Sean Wilentz
★ A New York Times Book Review Editors’ Choice
“What does Wilentz know that others have gotten so terribly wrong about the founding connection between slavery and racism? In his revealing and passionately argued book, he insists that because the framers did not sanction slavery as a matter of principle, the antislavery legacy of the Constitution has been ‘slighted’ and ‘misconstrued’ for over 200 years.”

The Second Creation
Fixing the American Constitution in the Founding Era
Jonathan Gienapp
★ A Spectator Book of the Year

“The greatest innovation of the American Revolution was the idea of a written constitution as supreme fundamental law. But another truly significant development immediately followed the ratification of the Constitution: the equally innovative but deeply controversial invention of modes of constitutional interpretation. Jonathan Gienapp explores how this process unfolded, brilliantly explaining the search for the original meaning of the Constitution.”

Aaron Sheehan-Dean

“Sweeping and yet also delicately measured, this book promises to resolve longstanding debates about the nature of the Civil War. With its publication, we should be able to put aside old debates about total war or hard war and instead seek to understand the forces that produced a war that could at once seem hard and soft, unbridled and constrained. Japan in the American Century

Kenneth B. Pyle

“This is a fine book, intelligent and necessary. Pyle writes in a subtle and supple way, with an unerring sense of balance. His careful linking of the unconditional surrender demand by the U.S. to the character of the Japanese postwar settlement is fresh and provocative. I hope those who make American policy toward Japan read what he has to say.”

Japan Rearmed

The Politics of Military Power

Sheila A. Smith

Japan’s United States–imposed postwar constitution renounced the use of offensive military force. In Japan Rearmed Sheila Smith argues that Japan is not only responding to increasing threats from North Korean missiles and Chinese maritime activities but also reevaluating its dependence on the United States. No longer convinced that they can rely on Americans to defend Japan, Tokyo’s political leaders are now confronting the possibility that they may need to prepare the nation’s military for war.

**Time and Its Adversaries in the Seleucid Empire**  
Paul J. Kosmin

“[Seleucus I’s] new dating system was intended to make the king master of time. It ultimately transformed the historical consciousness of the empire’s populations, triggered the nostalgic desire to keep the memory of a pre-Seleucid past, and shaped expectations of the future. With erudition, theoretical sophistication, and meticulous discussion of the sources, Paul Kosmin sheds new light on the meaning of time, memory, and identity in a multicultural setting.”

Romanland
Ethnicity and Empire in Byzantium
Anthony Kaldellis
“Romanland is brilliant. With great lucidity, Anthony Kaldellis challenges us to set aside an immense tradition of misdirection. He excavates the conceits by which the West created ‘Byzantium’—and itself—and then demolishes them. Only then do we see what was in fact there all along: a community of Romans, and a polity of remarkable creativity and endurance. This is tremendous scholarship.”
