The Privileged Poor
How Elite Colleges Are Failing Disadvantaged Students
Anthony Abraham Jack

★ An NPR Favorite Book of the Year
★ Critics’ Choice Book Award, American Educational Studies Association
★ Mirra Komarovsky Book Award
★ CEP–Mildred García Award for Exemplary Scholarship

“Eye-opening...Brings home the pain and reality of on-campus poverty and puts the blame squarely on elite institutions.”
—Washington Post

“Jack’s investigation redirects attention from the matter of access to the matter of inclusion...His book challenges universities to support the diversity they indulge in advertising.”
—New Yorker

“This book should be studied closely by anyone interested in improving diversity and inclusion in higher education and provides a moving call to action for us all.”
—Raj Chetty, Harvard University

The Missing Course
Everything They Never Taught You about College Teaching
David Gooblar

★ An Inside Higher Ed “Books to Give the Educator in Your Life for the Holidays” Selection

“Part education theory, part reflection on labor, part toolkit. Gooblar critically diagnoses how teaching gets done (or doesn’t) in modern colleges and universities, but he goes beyond critique, offering a series of activities, approaches, and strategies that instructors can implement. His wise and necessary book is a long defense of the idea that a university can be a site of the transformation of self and society.”
—Los Angeles Review of Books

“What a delight to read David Gooblar’s new book on teaching and learning. He wraps important insights into a story of discovery and adventure. I’m sure you’ll enjoy it as much as I did.”
—Ken Bain, author of What the Best College Teachers Do

272 pp.  $29.95 • £23.95 cloth 9780674984417

How We Teach Science
What’s Changed, and Why It Matters
John L. Rudolph

★ A Times Higher Education Book of the Week
★ A Choice Outstanding Academic Title of the Year

“Rudolph is...laser focused on the ‘how’ of the science classroom—how its practice varies across time, how its meaning is debated by reformers, and how its role in education shifts as schools themselves change. And for that discussion there is no better guide.”
—Science

In Search of Deeper Learning
The Quest to Remake the American High School
Jal Mehta • Sarah Fine
★ Gravemeyer Award in Education
★ An Edutopia “Summer Reads for Teachers” Selection
“The best book on high school dynamics I have ever read.”
—Washington Post
“A hopeful, easy-to-read narrative on what the best teachers do and what deep, engaging learning looks like for students. Grab this text if you’re looking for a celebration of what’s possible in American schools.”
—Marissa King, Edutopia
1 illus., 8 tables 464 pp. $29.95 • £23.95 cloth 9780674988392

Arithmetic
Paul Lockhart
“Inspiring and informative, and deserves to be widely read.”
—Wall Street Journal
“More than just an informative survey of the fundamentals of basic arithmetic, this fun book offers a philosophical take on number systems and revels in the beauty of math.”
—Science News
Belknap Press 58 illus. 240 pp. $14.95 • £11.95 paper 9780674237513

How Girls Achieve
Sally A. Nuamah
★ A Greater Good Favorite Book for Educators
“Deeply inspiring...This book holds profound lessons for students, parents, and educators.”
—Jane J. Mansbridge, Harvard University
“The recommendations and strategies that Nuamah provides throughout are concrete actions that scholars, practitioners, and policymakers can take up to support girls’ learning and positive life trajectories.”
—Charlotte E. Jacobs, coauthor of Teaching Girls
“Nuamah presents extensive research on the educational challenges that still exist for girls.”
—Ms.

Make It Stick
The Science of Successful Learning

Peter C. Brown • Henry L. Roediger III • Mark A. McDaniel

Speaking most urgently to students, teachers, trainers, and athletes, Make It Stick will appeal to all those interested in the challenge of lifelong learning and self-improvement.

“Offers practical advice for learners of all ages, at all stages of life.”
—Psychology Today

“Weave[s] together stories from an array of learners—surgeons, pilots, gardeners, and school and university students—to illustrate how successful learning takes place.”
—Times Higher Education

Belknap Press 336 pp. $30.00 • £24.95 cloth 9780674729018

Resources for Educators
Redesigning America’s Community Colleges
A Clearer Path to Student Success
Thomas R. Bailey • Shanna Smith Jaggars • Davis Jenkins
“Redesigning America’s Community Colleges is must reading for anyone who cares about making community colleges the engines for social mobility they intended to be.”
—Richard D. Kahlenberg, The Century Foundation
“Bridges the all-too-familiar divide between research and practice, outlining actionable, transformative recommendations to improve student attainment.”
—James Jacobs, Inside Higher Ed
6 graphs, 1 table 304 pp. $38.00 • £30.95 cloth 9780674368286
You Can’t Say You Can’t Play
Vivian Gussin Paley

“Arresting in its title, magical in its appeal, and inspiring in its message...[It] illustrates how the teacher’s art can attack the evil of exclusion at its childhood root.”
—Derrick Bell, New York Times Book Review

“In instituting the ['you can’t say you can’t play'] rule, Paley was challenging the assumption that cruelty in childhood is to be expected and that children should fend for themselves when it happens—no matter if they can benefit from such experiences.”
—Theresa Defino, Washington Post

5 line illus. 144 pp. $22.00 • £17.95  paper  9780674965904
The Ambiguity of Play
Brian Sutton-Smith

“A wonderful and important book. Its strength is its depth and its breadth. Play is discussed in incredibly close detail, and from diverse perspectives: from anthropology to zoology, to literary criticism and biology. This work represents the one most thorough discussion of play that we have.”

—Anthony Pellegrini, University of Georgia

“A stunning book and a superbly scholarly undertaking which will make it impossible to discuss play in the simplistic terms we are accustomed to.”

—Greta Fein, University of Maryland at College Park

Becoming Human
A Theory of Ontogeny
Michael Tomasello
★ William James Book Award, American Psychological Association
“Magisterial...Makes an impressive argument that most distinctly human traits are established early in childhood and that the general chronology in which these traits appear can at least—and at last—be identified.”
—David P. Barash, Wall Street Journal
“Theoretically daring, experimentally ingenious, and astonishingly generative, Becoming Human squarely tackles the abiding question of what makes us human.”
—Paul Harris, Harvard University
Belknap Press 24 illus., 1 table 392 pp.

Salsa Dancing into the Social Sciences
Research in an Age of Info-glut
Kristin Luker

“Luker’s book offers a startlingly original and unorthodox take on how to teach research methods, and is funny, accessible, and inviting too. It gives a down-to-earth view of how knowledge evolves, how good research questions gel, and how to go about creating a research design. I cannot wait to be able to assign it to my students.”
—Michèle Lamont, Harvard University

“A charming and effective manual on how to get through the research process with most of one’s enthusiasm still intact...For young researchers undertaking their first project or beginning a dissertation, it should prove an excellent guide.”
