*Napoleon and de Gaulle* compares two exemplars of political and military leadership to make the unfashionable case that individuals, for better and worse, matter in history. Napoleon Bonaparte and Charles de Gaulle were men of genuine talent and achievement, with flaws almost as pronounced as their strengths. As many nations struggle to find their soul in a rapidly changing world, Gueniffey shows us what a difference an extraordinary leader can make.

The Perfect Fascist
A Story of Love, Power, and Morality in Mussolini’s Italy
Victoria de Grazia

The Perfect Fascist pivots from the intimate story of an inconvenient marriage—brilliantly reconstructed through family letters and court records—to a riveting account of Mussolini’s rise and fall. It invites us to see in the vain, loyal, lecherous, and impetuous Attilio Teruzzi, a decorated military officer with few scruples and a penchant for parades, an exemplar of fascism’s New Man. De Grazia’s landmark history captures the seductive appeal of fascism and shows us how, in his moral pieties and intimate betrayals, his violence and opportunism, Teruzzi is a forefather of the illiberal politicians of today.
